

Eloi Ngabonziza

Entry Level Software Developer | React | Next.js | TypeScript | Node.js

eloingabonziza@gmail.com | (364) 203-4090 | Bowling Green, KY (Remote-friendly) | [Portfolio](#) | [LinkedIn](#)

Summary

Entry-level Software Developer with hands-on experience building and shipping production-ready web applications using React, Next.js, and TypeScript, combining full-stack engineering skills. Eager to apply strong problem-solving, communication, and collaborative skills within a structured training programme to accelerate a long-term software engineering career.

Education

Frontend Simplified 2025 – 2026

Frontend Development Programme (React, Next.js, TypeScript, Tailwind CSS)

Modern Web Development: JavaScript, HTML5, CSS3, Git

Western Kentucky University 2023 – 2025

Python, JavaScript, SQL, Website Design & Database-Driven Web Application

South Central Kentucky Community & Technical College (SKYCTC) 2021 – 2023

Hardware/Software A+ Preparation, TestOut PC Pro, Introduction to Networking & Security

Experience

Skintric AI – Frontend Engineer – Remote Dec 2025 – Mar 2026

- Built and shipped a real-time AI skin analysis platform using OpenAI Vision API and Next.js, delivering 98% high-accuracy skin condition detection across diverse user inputs.
- Developed a responsive UI with Tailwind CSS and GSAP animations; engineered dynamic recommendation cards that measurably improved engagement and session retention by 40%.
- Optimized performance via Next.js Server Components and Lottie, reducing analysis time to under 2 seconds.
- Designed a modular, reusable component library that accelerated A/B testing and front-end iteration cycles.

Frontend Simplified – Frontend Developer & Support Staff – Remote May 2026 – Present

- Selected as peer mentor after achieving top 5% performance in cohort, providing debugging support and code reviews for 20+ students across React and Next.js projects.
- Led workshops on frontend performance and component design, covering load time optimization and responsive layout patterns by an average of 50%.
- Demonstrated structured problem-solving, team coordination, and communication skills directly transferable to collaborative engineering teams.

Technical Skills

Programming Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, Tailwind CSS, Firebase, Supabase, Next.js, Redux

Backend & APIs: Node.js, Express, PostgreSQL, OpenAI API, REST API

Concepts: Accessibility (WCAG), Component Architecture, Performance Optimization, State Management

Tools & Platforms: Git, Vercel, GitHub, Vite, Figma, VS Code, NPM, Stripe, React Testing Libraries

Projects

Summarist Book | [Live Demo](#) | [GitHub](#)

Built a book discovery and audio summary platform with custom search, dynamic routing, and loading states — integrating third-party APIs to deliver instant previews and 100% full-page navigation.

Netflix | [Live Demo](#) | [GitHub](#)

Built a Netflix clone with Next.js and Firebase — integrated TMDb API for live movie listings, implemented authentication, and optimized rendering to achieve 50% faster load times.
